Mike,

Thanks for sharing that information with us. You are correct that is purpose of the kick off meeting. All of that info has been relayed and discussed with Jim Perris, Cliff's supervisor. We just inquired with Jim, who will be present at the meeting, and he confirmed that he has a similar understanding of the meeting. Jim arranged for Cliff, Katie Norris of TetraTec (wrote the Waste Management Plan), and a Chem Waste Management rep (Oregon TSDF for disposal) to be there on Tuesday to discuss topics such as waste tracking and documentation. I think it is unlikely that Cliff does not know the meeting's purpose. Jim expressed surprise that Cliff would say that, and said he would call Cliff this morning. I'm sure you always travel with PPE for work, but Jim reminded us yesterday to be sure to bring hard hats, vests, eyewear and steel toed boots for the site. Hope to see you there!

Mark

Hi Mark,

Sounds good. Just wanted to let you know, I had to go up to CFAC yesterday to meet with a property owner in which we were resampling a well. When I mentioned I was probably coming next week Steve Wright mentioned they were aware of the Kick-off meeting, but also mentioned Cliff wasn't sure why or what it was about. I told Steve I assumed it was like all kick-off meetings where all parties get together to make sure we all understand what was agreed to and the next steps forward. Just thought I would share that with you.

Mike

Thanks, Mike, that's a good point. Let's meet at 11:00 am at CFAC. Cory will let Cliff Boyd know. We understand that Cliff, Jim Perris, Katie Norris and a representative from Chem Waste Management will be present for Calbag. I think the meeting should last 2-3 hours. We can meet for an hour or so, and break for lunch or to have a caucus about any items that come up, or just push on through to the end of the meeting.

See you there!

Mark

If they could plan this for 10:00 am or later that would make it easier for me to make it there and back the same day.

Thanks

Mike

All,

At the last CFAC coordination meeting Mike Rieger and I mentioned that we wanted to have a kick off meeting with Calbag and CFAC prior to the implementation of the Waste Management Plan and removal of K088 from the facility. Jim Perris and Cliff Boyd of Calbag have responded and we have a meeting set up at CFAC for the morning of July 19. Cory Mikita is working with Cliff to finalize the start time, and we'll let you know that as soon as we can.

Cory, Mike Rieger and I will be at CFAC for the HW Program and the ENFD. Mike Cirian expressed interest in attending the kick off meeting. If anyone else is interested in attending, you are certainly welcome, too. Please let me know if you can attend so I can let Calbag-CFAC know the number of attendees. I anticipate the meeting will take 2-3 hours, but it could go longer.

I hope to see you there!

Mark
